Find your fit with a ring you own

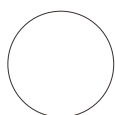

FIRST: CHECK YOUR PRINT SCALE

Print on A4 at 100% / Actual size. Turn off Fit to page or Shrink to fit.

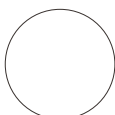

Measure this line with a ruler. It must be exactly 50 mm. If not, reprint.

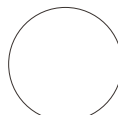

1. Choose a ring that fits the finger you want to wear your new ring on.
2. Place it over a circle below. Match the INSIDE opening to the circle line.
3. Record the diameter in millimetres, then use the conversion chart on page 3.

No ring? Make a paper measuring strip

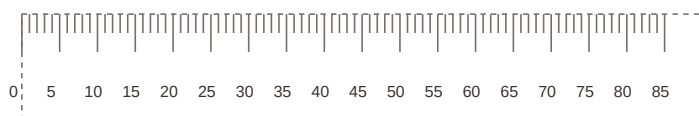

FIRST: CHECK YOUR PRINT SCALE

Print on A4 at 100% / Actual size. Turn off Fit to page or Shrink to fit.

Measure this line with a ruler. It must be exactly 50 mm. If not, reprint.

1. Cut out the strip along the dotted outline. Do not cut the numbered ticks.
2. Wrap it around your finger, with the printed side facing out.
3. Read the millimetre mark where the START edge meets the strip.
4. Keep it snug without squeezing; check that it can pass over your knuckle.

START

Read at this cut edge (0 mm).

Your measurement: _____ mm around your finger

This is circumference - not diameter and not a ring size number.

FOR A MORE RELIABLE FIT

Measure twice with warm hands. Paper gives an approximate measurement.

A proper ring sizer is more reliable, especially for wider bands.

Compare your measurement with the conversion chart on page 3.
